

RAP-8 Series Space Saver™ Odor and Particulate Controllers

- ◆ The NATURAL way to eliminate odors, dust and pollen without sprays, chemicals, ozone or gimmicks.
- ◆ An industrial-type air cleaner for your office and home.
- ◆ Removes pet odors and dander.
- ◆ A Mini-dynamo — powerful, compact, safe, quiet and affordable.
- ◆ Used in university labs to eliminate odors.
- ◆ **electrocorp** air scrubbers have been tested and approved by the Department of Homeland Defense for use by the U.S. Army Corps of Engineers.

Carbon Media Filter
Odor Control

.3 Micron
Particulate Filter

Since 1985, **electrocorp** has designed and manufactured industrial air scrubbers for clients such as the U.S. Navy, U.S. Army Corps of Engineers, Boeing, Dupont, and hospitals including Chicago General, Downtown New York Medical Center and Kaiser Permanente. Now we are able to bring these identical air cleaning capabilities into your home or small office. The **electrocorp** RAP-8 Air Scrubber is truly a dynamo. Use it in your kitchen, child's room, living room, bedroom or small office.

With a diameter of only 8 inches, it is easy to move around and can be strategically placed on night stands, end tables, kitchen counters, and desks. The RAP-8 Odor Control Unit has a high efficiency, 5 pound carbon filter built to last and eliminate the strongest odors, and dust/particulate down to .3 microns in size. The RAP-8 Particulate Control Unit captures 95% of particulate at .3 microns and up; this includes mold spores, bacteria, dust and pollen. The odor and particulate control filters are interchangeable. You won't find a more effective, compact air scrubber on the market.

Air Flow and Mechanical:

Air flow rate - CFM (speed controllable)
Replaceable .3 micron pre-filter - collects particles
Disposable Inner Filter
